

## **WARNING**

**Whilst in operation, parts (including exterior surfaces) of your equipment will become hot. Position the appliance so as to minimise the possibility of accidental touching.**

This commercial grill has grill-pan runners that are designed so that the Rod Shelf can be quickly drawn in and out of the grill. Consequently, you must NOT attempt to balance the Rod Shelf on the runners, as you draw it out of the grill. Hold the Rod Shelf securely by the handle when you draw it out to view the cooking food.

## **CONSEQUENTIAL LOSS**

**Fortius** does not accept any responsibility for loss of food, production time, profit, etc., which is as a consequence of a breakdown of the equipment.

## **GUARANTEE**

**Fortius** equipment is covered by a 12 months parts & labour guarantee. All work will be carried out between 9.00am-5.00pm, Monday to Friday, excluding Bank Holidays.

If you require assistance, please call our Service Line on **01355 244 111**

**Fortius** offer a rapid spares service, direct to your door - call **01355 244 111**

**NOTE: Glass Infra-red elements are not covered by the guarantee.**

## **PRECAUTIONS**

1. 6 GLASS infra-red elements have been packaged in bubble wrap for transportation. FRAGILE - please unwrap with great care.
2. Ensure that the electricity supply is adequate for the unit to be installed.
3. Remove all the packaging from the appliance. Remove the protective film covering the stainless steel panels.
4. When siting the unit, ensure that there is free airflow around and behind it and that vents are not blocked. Ensure the appliance is level. Ensure that there is a gap of at least 25mm between the vent and any connecting item (including walls).
5. Walls, partitions, kitchen furniture etc. in close proximity to the appliance must be of fireproof construction.

## **INSTALLATION OF THE GRILL**

Before connecting to the electricity supply: -

1. 6 GLASS infra-red elements have been packaged in bubble wrap and placed inside a cardboard tube for transportation. FRAGILE: please unwrap with great care.

2. Insert the top, rear element first. Slide down into metal holster. Carefully push one end into white retaining socket, then the other end.
3. After inserting the top three elements. Insert the bottom, rear element. Slide into metal holster. Carefully push one end into white retaining socket, then the other end.
4. **Fortius** grills may be used free-standing or wall-mounted. **Fortius** wall brackets (FWB6) are available.
5. Using a little mild detergent, wipe all the surfaces. **Do not use abrasives.** Take care not to touch the element.
6. Wipe away any detergent residue with a clean damp cloth.
7. Make sure the appliance is dry before use.

## **OPERATING INSTRUCTIONS**

1. Ensure the appliance is level and correctly sited and crumb tray is shiny side up.
2. Switch on the power supply. The red neon will indicate that the power is "ON".
3. The left hand knob operates the timer switch. Turn the timer knob anti-clockwise to "HOLD" or clockwise to the time setting required. NOTE : The timer must be switched on for the grill to operate.
4. The centre knob controls the bottom elements. The right hand knob controls the top elements. These controls can be used independently so that you can use one heat source only.
5. Turn the control knob clockwise to the desired setting - settings that best suit your food products will be found with practice. The amber neon will indicate that the heat control is switched ON.
6. Place the food on the Rod Shelf.
7. This commercial grill has grill-pan runners that are designed so that the Rod Shelf can be quickly drawn in and out of the grill. Consequently, you must NOT attempt to balance the Rod Shelf on the runners, as you draw it out of the grill. Hold the Rod Shelf securely by the handles when you draw it out to view the cooking food.
8. When not in use, turn the control knob anti-clockwise to the OFF position, marked "0".
9. At the end of the working period, turn OFF at the power supply.

## **CLEANING INSTRUCTIONS**

1. Disconnect from the mains electricity supply.
2. Allow to cool.
3. Wipe over the interior and exterior surfaces. **Do not use abrasives.** Be careful not to knock the glass infra-red elements.
4. Take care to avoid wetting electrical components.
5. These appliances must not be cleaned using a water jet.
